AT A GLANCE

# The Compact benefits

## Solid foundation

With a reputation for delivering smart refrigeration solutions, Hoshizaki engineers cabinets for better storage solutions for Chefs and kitchen operators.

### COMPACT AND VERSATILE

With our solid engineering and design background, Hoshizaki develops cabinets for better storage solutions for Chefs and kitchen operators.

### UNIFORM TEMPERATURES

Automatic defrost and a smart air distribution system ensures correct and uniform temperatures at all times preserving the taste, texture and nutritional content of your fresh goods.

### SPACE SAVING MODULARITY

The COMPACT undercounter models are designed to fit under worktops in commercial workplaces. They can be positioned as free-standing cabinet. The full-height storage cabinets boast a small footprint, perfect for limited space in back of house environment.

### EASY CLEANING

Rounded corners and base, seamless surfaces and removable door gasket ensures cleaning routines become a quick and simple task.

### WASTE REDUCTION

The practical anti-tilting shelves prevent spillage.

### FULL HEIGHT INTEGRATED HANDLE

Easy grip and easy access for cleaning.

### HIGH STANDARD IN HYGIENE

The one piece inner lining with its smooth surfaces and seamless construction allows for a straight forward cleaning routine.

# A quick guide to the Compact series.

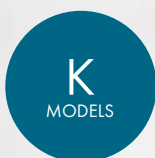

- The GRAM COMPACT series offers a rare combination: they are professional food safe cabinets with a compact size and with excellent energy ratings for its class.
- These small space storage cabinets are easy to fit in, especially when space is of a premium, making the COMPACT series a popular choice amongst small kitchen operators who do not require heavy duty gastronorm refrigeration.
- Ideal for commercial kitchens.  
(Front of House/ Back of House)
- Suitable for operations in ambient temperatures of up to +30°C.
- Climate Class 4: normal-duty cabinets  
(KG-glass door refrigerators-are also climate class 4)  
Climate Class 3: glass door freezers.

- 1 > Low noise levels.
- 2 > Air circulation system ensure temperature stability.
- 3 > Removable door gasket for easy cleaning.
- 4 > Full-height integrated handle. Easy grip and easy access for cleaning.
- 5 > Anti-spillage shelves with tilt prevention.
- 6 > Automatic defrost.
- 7 > Compact 220 fits under work tops or can be stacked if required.
- 8 > Variety of cabinet size and temperature ranges.
- 9 > Seamless structure for easy cleaning inside the cabinet.
- 10 > Optional: pedal door opener, which can be placed on left or right side.

- < 11 Built-in LED light (available in glassdoor cabinets only).
- < 12 Wide magnetic removable door gasket with triple insulation area provides an effective seal, reduces escaping cold air.
- < 13 Efficient air distribution inside the cabinet allows chilled air flow with a specially designed air channel.
- < 14 Reversible door (solid or glass doors).
- < 15 According to your preference: Legs or Castors available (420 models only).
- < 16 Clear display. Membrane switchboard for easy cleaning.
- < 17 Automatic re-evaporation of condensate water.
- < 18 Door Lock.
